

5 Questions To Ask Before Someone Works On Your Home

When seeking a home service contractor, it's important to ask the right questions to ensure you choose the best option.

Here are the top 5 questions to ask:

1) "Are You Licensed and Insured?"

- **Why Ask:** Licensing ensures that the individual has met the necessary requirements and possesses the skills needed for the job. Insurance protects both you and the contractor in case of accidents or damages during the work.
- **Follow-Up:** If desired, request the contractor's license number and verify it with the appropriate licensing authority. Ask for proof of insurance coverage. That's could be over the top in some situations, but whatever makes you feel comfortable!

2) "What is Your Experience in This Type of Work?"

- **Why Ask:** Different contractors (even within the same industry) may specialize in various aspects of their field, such as residential repairs, commercial projects, or specific types of installations. Understanding their expertise ensures they are well-suited for your particular needs.
- **Follow-Up:** Inquire about their experience with similar projects, read reviews, and ask for examples of past work.

3) "Can You Provide a Detailed Estimate?"

- **Why Ask:** A clear and detailed estimate helps you understand the scope of work and associated costs. It also allows you to compare quotes from different contractors and companies.

- **Follow-Up:** Ask for a breakdown of the estimate, including labor, materials, and any potential additional charges.

4) ***“What is Your Response Time for Emergency Calls?”***

- **Why Ask:** If applicable to the industry, you want someone you can trust to be there for you. For example, if you're facing a plumbing emergency, response time is crucial. (We've got you covered there!) Knowing how quickly an individual can address urgent issues helps you make an informed decision during stressful situations.
- **Follow-Up:** Inquire about their availability for emergency calls, especially outside regular business hours.

5) ***“Do You Guarantee Your Work?”***

- **Why Ask:** A guarantee or warranty on workmanship provides assurance that the contractor stands behind their services. It also demonstrates their commitment to customer satisfaction.
- **Follow-Up:** Ask for details on the warranty or guarantee terms, including the duration and what it covers.

We want you to feel confident when doing work on your home. These questions can help you assess the qualifications, reliability, and customer-focused approach of any home service contractor before hiring them. Remember, trust your instincts and read their reviews beforehand too!

We hope these tips help! If you'd like us to drop by sometime soon to fix any plumbing issues, just give us a call!
